

## **First Parish Congregational Church, United Church of Christ Yarmouth, ME**

### **Wedding Photographers and Videographers:**

We are glad that you are here today to help record this special event. The sanctuary where the wedding will take place is a sacred space and the wedding ceremony is a sacred ceremony, therefore we are asking that you abide by these guidelines.

Between the end of the processional and the beginning of the recessional

- movement within the sanctuary needs to be kept to a minimum and, if you must move, come no closer than half way down the side aisles,
- photographers and videographers are not allowed in the center aisle, and
- use no additional lighting.

You are free to take photographs in the sanctuary following the service. Please speak to the officiating pastor if you want him/her to be included.
